**Subject:** RE: DRAFT RSIs  
**Attachments:** ED-042Rev2.pdf

Jennie,

In response to the draft RSIs and the email request below, I wanted to let you know that the CCO-CAL-0003 reference was included in Attachment C – Supplementary References, of the April 30, 2012 transmittal letter. Perhaps someone other than the thermal reviewer received the single hard copy that went to your attention; a second hard copy went to the Document Control Desk. An electronic copy of the reference was also included in the “References” subfolder on each of the CDs.

The ED-042 reference was previously provided to the NRC during TRUPACT-II, HalfPACT, and RH-TRU 72-B amendments, but I recall that it was most recently submitted way back in 2002. We will transmit it formally, if needed, but I have attached an electronic copy for your information.

Thank you,

Brad

**Subject:** DRAFT RSIs

Hi Todd,

I have a DRAFT of the RSIs. They are attached. I believe they are pretty straight forward. The reviewers checked twice and could not find those references, which they thought were important to the review. Let me know if you have questions or if they were included with the submittal, but we missed them.

Once I hear from you, we can determine if we can go ahead and process these RSIs and if we need to have the teleconference call on 6/6.

Thanks,

Jennie
