SUBJECT: GATEWAY COMMUNITY COLLEGE, LICENSE AMENDMENT, CONTROL NO.
577540

Dear Dr. Kendrick:

This refers to your license amendment request. Enclosed with this letter is the amended license.

This Amendment adds the new facility as requested to enable you to move your licensed activities. Prior to release of your current facility for unrestricted use, you must receive an Amendment removing your current facility from your license. Include in the request, the results of surveys demonstrating that the levels of residual activity in the facility are acceptable. Your decommissioning plan submittal was not required. Methods to demonstrate that the levels of residual activity in the facility are acceptable are contained in NUREG-1757, Volume 1, Revision 2, "Decommissioning Process for Materials Licensees."

(<http://pbadupws.nrc.gov/docs/ML0325/ML032530410.pdf>) When you submit the Amendment request, please refer to the Control Number at the top of this letter.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**.
