SUBJECT: APPROVAL LETTER OF THE ACCEPTED VERSION OF THE TRICONEX
TOPICAL REPORT (TAC NO. ME8759)

Dear Mr. Scott:

By letter dated May 15, 2012 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML12146A005), Invensys Operations Management (IOM) submitted the accepted version of the "Triconex Topical Report" for U.S. Nuclear Regulatory Commission (NRC) staff review and approval. IOM has published the accepted proprietary and non-proprietary versions of this topical report (TR), as detailed in the transmittal letter of the final safety evaluation (ADAMS Accession No. ML120900889) for the original TR.

The NRC staff has completed its review of the accepted version of the TR. The NRC staff determined that IOM has met the requirements and that the version is acceptable for referencing in licensing applications for nuclear power plants to the extent specified and under the limitations delineated in the accepted version of the TR.

Please contact Jonathan Rowley of my staff at (301) 415-4053 if you have on questions on this subject.

Sincerely,

/RA/

Sher Bahadur, Deputy Director
Division of Policy and Rulemaking
Office of Nuclear Reactor Regulation
