Subject: Location of new house under construction near Dewey-Burdock.

Ron and Steve,

It appears the appearance of house under construction on the back road to the Dewey-Burdock Project needs to be further addressed. The house is outside the proposed license boundary. While we have not yet placed the new residence on a map, we have obtained the coordinates, which are shown below in UTM, State Plane and Lat-Long formats. Please advise as to what additional information you require related to the construction of this residence.
