Peter Kolb,

NRC staff continues to review the Plum Brook Reactor Facility Final Status Survey Report (FSSR). Attached are NRC staff's comments on the FSSR Main Body Report. In addition, NRC staff has reviewed and has no comments on FSSR Attachments 12, 14, 15, 16, and 18.

Upon receipt of NASA's response to NRC's FSSR comments, NRC staff anticipates receiving a NASA request for license termination.

NRC staff's comments and NASA's comment response will be made publicly available in the NRC Agencywide Documents Access and Management System (ADAMS).
