Steve,

Attached is the letter I promised earlier this week. I will send you that original via snail mail.

Regards,

Juan

Re: Peña Ranch Uranium Mill License Application

Dear Mr. Cohen:

This is to confirm a recent telephone conversation in which we discussed the possibility of NRC staff performing a pre-submittal license application audit of license application documents that we are currently preparing for the proposed Roca Honda Resources, LLC Peña Ranch uranium mill. As you know, we are in the process of compiling the documentation required for a mill license application by the NRC. We anticipate that our licensing package will be ready for submittal to your office in the late third quarter of this year. Per our discussions, we would like to arrange for you and your staff to perform an audit of our licensing package during the week of August 20, 2012. We will work out the details such as location, site visit, time required, etc., after we receive confirmation of your availability. Please advise us of your availability at your earliest convenience.

If you have any questions or require additional information, please feel free to contact me at office at 505-474-6696 or via e-mail at [jvelasquez@strathmoreminerals.com](mailto:jvelasquez@strathmoreminerals.com)

Sincerely,

A handwritten signature in black ink, appearing to read 'Juan R. Velasquez', is written over a horizontal line. The signature is fluid and cursive.
