Subject:

Pending Expiration of NRC License

(NOTE: This will be used as the
Documents Title in ADAMS)

6/4/2012 (12:40) I spoke with Mr. Aiudi about the pending expiration of the NRC license. Mr. Aiudi stated that a renewal application still needed to be sent in, that it was his responsibility and asked for our address. He then requested the time frame upon which a renewal application would be completed as the licensee would like to upgrade some of its equipment from different manufacturers. I replied that renewal applications for the type of work the licensee performs are usually processed quickly they would be better served by submitting an amendment request for an expedited review. In the cover letter, the licensee explains why they need the expedited review and when the date that the action is needed to be completed. The renewal application should have all of the necessary information including what was in the amendment request. Mr. Aiudi stated that he would complete and send in both requests as soon as possible.
