Re: Additional Information for CN 577170

Dear Bryan:

Attached is the additional information that you requested regarding Mr. Ming Hu's radiation specific training and experience handling radioactive materials.

Please contact Mr. Brian Davidson directly at (317) 467-2607 should you need any additional information regarding this license application for amendment.

Sincerely,

Brian Davidson, RSO  
EHS Specialist II  
Covance Laboratories, Inc

### Ming Hu's radiation safety training background from the most recent employments

At Covance, I received the first radiation safety training in 2008, and subsequent yearly refreshing trainings. All the trainings are documented in my training file. The RIA tests use Iodine-125 at the level of less than 100 micro curies a day.

At Indiana University Medical Center, I received my training and subsequent refreshing trainings in a period of 1990 to 2008. I used tritium and iodine-125 from 1990 to 1999, and iodine-125 only from 1999 to 2008. The daily radioactivity did not exceed 1 mCi.
