---

Thank you, Chad. Please work with your LA to have her fill out the required 758's so I can close them. Sarah, would that be you?

Thank you,

Julie

Julie

NYSERDA email below informs NRC of NYSERDA decision **not** to pursue a partial site release at this time. NYSERDA also recommends that NRC close-out any actions related to this matter. Therefore, I request that the following two billing codes, and any other open billing codes, related to this matter be closed-out.

05000201-NYSERDA - PRE-APPLICATION REVIEW FOR FSSP-354117EA-Y  
05000201-NYSERDA – PM TAC-354117EA-Y

Let me know if you need additional information.

Thanks,  
Chad

**Subject:** NYSERDA Update on the Final Status Survey for the Bulk Storage Warehouse

Chad,

I hope this finds you well. We are looking forward to seeing you next week at the WVDP Regulatory Roundtable Meeting! I apologize for the delay in getting this information back to you, but Paul and I wanted to work through our path forward, which, based upon previous discussions with you, has evolved. I have attached bullets updating the Partial Site Release Project and our path forward.

NYSERDA is not planning to submit a revised version of the Final Status Survey for the Bulk Storage Warehouse (formerly the Plutonium Storage Facility), and will not be collecting any additional data in the near term related to the areas in and around the Bulk Storage Warehouse. We recommend that NRC close-out any actions you have related to our initial request.

Please let me know if you have any questions related to this email or the attachment.

Thank you in advance for your time and consideration.

Best regards,  
Andrea
