Dear Sir or Madam:

SUBJECT: Dairyland Power Cooperative (DPC)
La Crosse Boiling Water Reactor (LACBWR)
Possession-Only License No. DPR-45
10 CFR 50.54(p) Changes to Physical Security Plan

- REFERENCE:
- (1) NRC Letter, Watson to Brasel, dated August 2, 2010,
La Crosse Boiling Water Reactor – Revised Power Reactor
Security Rule
 - (2) Letter dated December 1, 2010, DPC to NRC, Request for
Exemption from Certain Requirements of 10 CFR 73.55 (for
LACBWR)
 - (3) Letter dated February 23, 2011, DPC to NRC, Request for
Exemption from Certain Requirements of 10 CFR 73.55 for the
Independent Spent Fuel Storage Installation

The LACBWR Physical Security Plan has been revised to maintain compliance with 10 CFR 73.55, and to implement the Independent Spent Fuel Storage Installation (ISFSI) requirements for transfer to on-site dry cask storage. This change is being submitted in accordance with 10 CFR 50.54(p) and been approved by the LACBWR Operations Review Committee and reviewed by the Safety Review Sub-Committee.

The ISFSI Physical Security Plan is established as Addendum III to the LACBWR Physical Security Plan. Chapter 6 of Addendum III is revised to enhance physical search requirements and clarify the facility badge system. Appendix II to the ISFSI Physical Security Plan is also revised to include enhanced physical search requirements in Task 47.

Also enclosed, as a separate item, is an explanation of the changes. These changes do not decrease the effectiveness of the Security Plan and do not decrease any commitment to security. The changes strengthen the overall security of the spent fuel by incorporating additional commitments to 10 CFR 73.55.

These enclosures are being sent as Safeguards Information. Please update your copy of the LACBWR Security Plan with the enclosures, and acknowledge these actions by signing and returning the enclosed receipt.

Please contact either Don Egge or Marty Moe of my staff, at 608-689-2331, if you have any questions or comments.

Sincerely,

Robert M. Palmberg, Vice President, Generation
