Re: Freedom of Information Act (FOIA) Request
Our File No.: 11-8306

Dear Sir/Madam:

In the document entitled "In the Matter of Entergy Nuclear Operations Inc.; Confirmatory Order Modifying License"(Federal Register citation 77 FR 5853), dated February 6, 2012 (and annexed to this FOIA request), a case study is mentioned on page 5855 (under Section V(B)):

"Entergy will prepare a case study about the event that formed the basis of the CO, highlighting the role of those who had the opportunity to detect, report and prevent the misconduct, as well as on the actions of the individuals who engaged in this misconduct. The Site Vice President or General Manager for Plant Operations at each of Entergy's nine commercial nuclear power plants will present the case study during two station-wide meetings to ensure that both day and night shift personnel will have the opportunity to attend. Entergy will complete these presentations within 180 days of the date of the CO. Entergy will make this case study available for NRC review before conducting these station-wide meetings, and will notify the senior resident inspectors at each of the Entergy sites regarding the dates and times of these meetings at their respective sites."
