Andrea,

I forwarded the information to Mike Stephens, State of Florida, on July 3, 2002. Stephens indicated that they would review the issue during the next PSI inspection. I also e-mailed the information to Dick Woodruff in Region II.

I am working on updating some old actions completed for allegations. Last year (2002) we had an issue regarding PSI. PSI found that their Tampa, FL facility sent them a gauge without a record of the leak test. DNMS recommended that the issue be referred to the State of FL for information only. I have a copy of an email from JHeller to you asking that the issue be referred, but I have no record that this was completed. Do you? Thanks

BTH

Subject: referral to the state of florida

Jim/kevin/roland

the attached memo suggested that we refer (for information only) concern 1 to the state of florida. What is the name of the contact for the referral to the state. does it go out under Lynch's signature.
