

NUCLEAR REGULATORY COMMISSION

[NRC-2011-0087]

RIN 3150-AI96

Non-Power Reactor License Renewal

AGENCY: Nuclear Regulatory Commission.

ACTION: Preliminary draft regulatory basis; request for comment.

SUMMARY: The U. S. Nuclear Regulatory Commission (NRC or the Commission) is making available a preliminary draft regulatory basis for a proposed rulemaking that would amend the NRC's regulations concerning the license renewal requirements for non-power reactors. This contemplated rulemaking would also make conforming changes to address technical issues in existing non-power reactor regulations. The NRC is seeking input from the public, licensees, certificate holders, and other stakeholders on the preliminary draft regulatory basis.

DATES: Submit comments by July 31, 2012. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date.

ADDRESSES: You may access information and comment submissions related to this preliminary draft regulatory basis, which the NRC possesses and are publicly available, by searching on <http://www.regulations.gov> under Docket ID **NRC-2011-0087**. You may submit

B. Submitting Comments

Please include Docket ID **NRC-2011-0087** in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

II. Background

In response to Commission direction in a Staff Requirements Memorandum for SECY-08-0161 (ADAMS Accession Nos. ML082550140 and ML090850159), the NRC has developed a preliminary draft regulatory basis for a proposed rulemaking regarding non-power reactor licenses. The preliminary draft regulatory basis document describes the NRC's overall objectives, conceptual approaches, potential solutions, integration with the NRC's strategic goals, and related technical and regulatory clarity issues for the proposed rulemaking. The NRC is soliciting comments on this preliminary draft regulatory basis document from the public,

licensees, and other stakeholders to confirm that an adequate regulatory basis exists to proceed with rulemaking to issue amended license renewal regulations for non-power reactors. The NRC conducted public meetings and Webinars on September 13 (ML112710285), and December 19, 2011 (ML113630166), and on June 20, 2012 (ML12177A334), to discuss the regulatory basis and to facilitate the public's and stakeholders' submission of informed comments.

The NRC is issuing this notice to solicit public comments on the preliminary draft regulatory basis to streamline non-power reactor license renewal. After the NRC staff considers public comments, it will make a determination regarding issuance of the final regulatory basis. Any subsequent versions of the regulatory basis will be posted on www.regulations.gov in Docket ID NRC-2011-0087. Regulations.gov allows you to receive alerts when changes or additions occur in a docket folder. To subscribe: 1) navigate to the docket folder, NRC-2011-0087; 2) click the "E-mail Alert" link; and 3) enter your e-mail address and select how frequently you would like to receive e-mails (daily, weekly or monthly).

Dated at Rockville, Maryland, this 25th day of June, 2012.

For the Nuclear Regulatory Commission.
