Mr. Tony Delfin, State Forester
New Mexico Energy, Mineral
and Natural Resources Department
New Mexico State Forestry Division
1200 South Street Francis Drive
Santa Fe, NM 87505

SUBJECT: NOTIFICATION OF THE ISSUANCE OF THE FINAL ENVIRONMENTAL
IMPACT STATEMENT FOR THE PROPOSED FLUORINE EXTRACTION
PROCESS AND DEPLETED URANIUM DECONVERSION FACILITY IN LEA
COUNTY, NEW MEXICO

Dear Mr. Delfin:

The U.S. Nuclear Regulatory Commission (NRC) has prepared the "Final Environmental Impact Statement for the Proposed Fluorine Extraction Process and Depleted Uranium Deconversion Plant in Lea County, New Mexico" (NUREG-2113). This Final Environmental Impact Statement (EIS) includes an analysis of relevant environmental issues, including information on potential impacts to ecological resources, and documents the NRC staff's determination regarding the potential environmental impacts from the construction, operation, and decommissioning of the proposed uranium processing facility. The NRC staff's determination is that potential impacts to ecological resources from construction, operation, and decommissioning of the proposed facility would be small.

The Draft EIS was transmitted to your office for review and comment by letter dated January 4, 2012. In preparing the Final EIS, the NRC staff reviewed, considered, evaluated, and addressed the comments received on the Draft EIS.

Enclosed is a copy of the Final EIS for your information.

T. Delfin
