

NOTE: The dimensions shown indicate the bounding excavation extent for safety-related structures at the top of the competent layer based on information in Table 2.5.4.5-1. They may not represent the actual dimensions of the excavation limits, or their spatial relationship to each other and to the Power Block.

LEGEND

- Power Block - Limit of Mass Excavation for General Power Block Grading
- - - -** Approximate Lateral Limits of Excavation to top of competent layer for PPE Safety - Related Structures
