Jenny,

Thanks for incorporating the additional end users. At this time I cannot confirm who is getting the bigger sources as in most of these cases the end users have not submitted actual orders since at this time we cannot export into Iraq. Once we obtain approval and can confirm the ability to make these shipments legally then those orders can be accepted and processed.

Lori

Lori,
I have forwarded the additional addresses to the Executive Branch and they will do their best to consider them in their review. Is there any information that you can provide that would indicate which entities the bigger sources would be going to? There is some sensitivity within the interagency and it would probably help your case if you were able to nail down what activity/isotope would potentially be going to the end users requested in your application. Please let me know if you have questions.

Thanks!
-Jenny
