Name of Licensee:

Pennoni Associates, Inc.

Name of Participant(s):

Quinton Davis, RSO
Scott Wilson, RI Health Physicist

Telephone No.

610-422-2406

Subject:

RAI, Renewal Application dtd 5/8/2012

Licensee was called to request additional information and clarification regarding the content of the renewal application dated 5/8/2012.

Licensee did not specifically request authorization to detach source or source rod from gauges for maintenance. This was authorized in the current license (condition 18), Amendment No. 10. The RSO said they have never used that authorization and that it should be excluded from the renewed license.

Licensee did not specify maximum possession limit requested. RSO said they possess 18 portable gauges and request the limit to be 19 gauges.

Licensee did not specify CPN gauge possession in the application. This manufacturer is authorized on the current license, Amendment No. 10. The RSO said they transferred all of their CPN gauges for disposal and requested that CPN gauges no longer be authorized on the license.

I requested that the RSO provide a letter, signed by management, regarding the items discussed above. He said he would fax the letter.

Action Required: Licensee to provide a letter including the requested information.
