The address for all products going to the Sanmen site is:
CNNC Sanmen Nuclear Power Co., LTD
Sanmen Nuclear Power Plant
Sanmen Zhejiang, PR China 317112

The address for all products going to the Haiyang site is:
Haiyang Nuclear Power Plant
Haiyang, Shandong Province
Peoples Republic of China, 265116

Carol,
I know that you're trying to dig out from being out but I thought I would follow-up to the voicemail that I left you yesterday. On your application for XSNM3702 for exports to

China, you included the names/addresses of what seems to be the owners of the Haiyang and Sanmen plants as the end users. Is the material actually going to the owners or to the plants? If it is going to the plants, the addresses of the plants should be provided as the sites of the 'ultimate consignees'. Please let me know if I have misunderstood or if the addresses of the plants need to be changed.

Thanks!

-Jenny
