Re: Freedom of Information Act Request for University of Missouri Research Reactor

Dear FOIA/Privacy Officer:

I am a Private Investigator and am working on an asbestos litigation. I would like your assistance in locating all records that relate to asbestos mitigation, asbestos abatements, and asbestos testing that occurred on the University Of Missouri Research Reactor (MURR). I would also like to locate records that identify personnel who operated MURR from 1970 through 1980.

Under the provisions of the Federal Freedom of Information Act, I hereby request records or portions thereof pertaining to:

The asbestos mitigation and asbestos abatement of the University Of Missouri Research Reactor (MURR).

Any asbestos abatement, inspections, mitigation, or survey work that was performed on the University Of Missouri Research Reactor (MURR) and the names of the contractors who performed any and all work on the University Of Missouri Research Reactor (MURR).

Records that identify the name or names of individuals who operated the University Of Missouri Research Reactor (MURR) from 1970 through 1980.

If there are any fees for copying the records requested, please supply the records without informing me if the fees are not in excess of \$250. I would appreciate a response as soon as possible. I look forward to hearing from you shortly. If for any reason any portion of my request is denied, please inform me of the reasons for the denial in writing and provide the name and address of the person or body to whom I should direct my appeal.

Sincerely,

Matthew B. Barravecchia
