Subject: Acceptance Review of Cooper Nuclear Station LAR to Adopt NFPA-805 (ME8551)
Attachments: ME8551 - Cooper Acceptance Review Questions.docx
Importance: High

Ed,

By letter dated April 25, 2012, Nebraska Public Power District (the licensee), submitted a license amendment request (LAR) to transition the fire protection licensing basis at the Cooper Nuclear Station, to Title 10 of the Code of Federal Regulations, Section 50.48(c), National Fire Protection Association Standard NFPA 805 (NFPA 805).

The Nuclear Regulatory Commission (NRC) staff has made the attached observations during the LIC-109 acceptance review process. These questions were discussed with the licensee via teleconference on June 20, 2012. The NRC staff requests a supplement to the LAR by July 13, 2012 in order to complete its acceptance review.

Please contact me if a clarifying teleconference is needed for the attached questions.

Thank You

Lynnea Wilkins, Project Manager
