

June 22, 2012

Mr. Anthony Patko
Director, Licensing
Engineering
NAC International
3930 East Jones Bridge Road, Suite 200
Norcross, GA 30092

SUBJECT: NRC APPROVAL OF NAC INTERNATIONAL'S REQUEST FOR WITHHOLDING
INFORMATION FROM PUBLIC DISCLOSURE FOR MODEL NUMBER
MAGNATRAN CLOSED MEETING (TAC NO. L24529)

Dear Mr. Patko:

By letter dated June 14, 2012, NAC International (NAC) submitted the presentation slides to support a closed meeting with the Nuclear Regulatory Commission (NRC) staff. The meeting was requested in support of a new application request for the Model No. MAGNATRAN transportation package.

Your June 14, 2012, letter included a NAC affidavit, signed by George Carver, dated June 14, 2012 (an attachment to your letter). The NAC affidavit requested that the material, which is contained in the presentation slides, another attachment to your letter, be withheld from public disclosure pursuant to Title 10 of the Code of Federal Regulations (10 CFR) Section 2.390.

The affidavit stated that the submitted information and the information to be discussed in the meeting should be considered exempt from mandatory public disclosure pursuant to 10 CFR 2.390 for the following reasons:

- (1) Information that discloses a process, method, or apparatus, including supporting data and analyses, where prevention of its use by competitors of NAC, without license from NAC, constitutes a competitive economic advantage over other companies.
- (2) Information which, if used by a competitor, would reduce their expenditure of resources or improve their competitive position in the design, manufacture, shipment, installation, assurance of quality or licensing of a similar product.
- (3) Information that reveals aspects of past, present, or future NAC customer funded development plans and programs of potential commercial value to NAC.

We have reviewed your application and all the supporting information in accordance with the requirements of 10 CFR 2.390 and, on the basis of your statements, have determined that the submitted information sought to be withheld is proprietary commercial and should be withheld from public disclosure.

A. Patko

-2-

Therefore, the presentation slides attached to the NAC letter dated June 14, 2012, marked as proprietary, will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended. Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified of the date of public disclosure, in advance, which will be a reasonable time thereafter.

If you have any questions regarding this matter, you may contact me at (301) 492-3339.

Sincerely,

/RA/

Kimberly J. Hardin, Senior Project Manager
Licensing Branch
Division of Spent Fuel Storage and Transportation
Office of Nuclear Material Safety
and Safeguards

Docket No. 71-9356
TAC No. L24529
