13. The licensee may transport licensed material in accordance with the provisions of 10 CFR Part 71, "Packaging and Transportation of Radioactive Material."
14. This license does not authorize the use of licensed material at temporary job sites for uses already specifically authorized by a customer's license. If a customer holds a license issued by the NRC or an Agreement State, the licensee shall establish a written agreement between the licensee and the customer, signed by both licensees', specifying which activity will be performed under the customer's license and supervision, and which activity will be performed under the licensee's supervision pursuant to this license. The agreement shall include a commitment by the licensee and the customer to ensure safety and any commitments by the licensee to help the customer clean up the temporary job site in case of an accident. A copy of this agreement shall be included in the notification to the Commission prior to work commencement.
15. The licensee shall maintain records of information important to decommissioning each temporary job site at the applicable job site pursuant to 10 CFR 30.35(g). The records shall be made available to the customer. At the completion of activities at a temporary job site, the licensee shall transfer these records to the customer for retention.
16. If approved by the Radiation Safety Officer listed on this license, the licensee may take reasonable action in an emergency that departs from conditions in this license when the action is immediately needed to protect public health and safety and no action consistent with all license conditions that can provide adequate or equivalent protection is immediately apparent. The licensee shall notify the NRC before, if practicable, and in any case immediately after taking such emergency action using the reporting procedure specified in 10 CFR 30.50(a).
17. Within 30 days of completing decontamination and decommissioning activities at each job site location, the licensee shall notify the Regional Administrator, U.S. Nuclear Regulatory Commission, Region III, 2443 Warrenville Road, Lisle, Illinois 60532, ATTN: Director, Division of Nuclear Material Safety, in writing of the temporary job site status and the disposition of any licensed material used.
18. In addition to the possession limits in Item 8, the licensee shall further restrict the possession of licensed material to quantities below the minimum limit specified in 10 CFR 30.35(d) for establishing financial assurance for decommissioning.

19. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents including any enclosures, listed below. The Nuclear Regulatory Commission's regulations shall govern unless the statements, representations and procedures in the licensee's application and correspondence are more restrictive than the regulations.
- A. Application dated April 24, 2001 (attached to letter dated April 25, 2001), and;
  - B. Letters dated August 31, 2001, October 26, 2001, November 9, 2001, July 18, 2006 (with enclosures), October 5, 2006 (with attachments), and;
  - C. Facsimiles dated September 10, 2001, October 25, 2001, and December 7, 2001.
