Dear Mr. Langrill:

It has come to our attention that Amendment No. 71, issued on January 24, 2011, contained an error. The error consisted of an incorrect regulatory designation, 10 CFR 35.600, for the Perfexion Gamma Stereotactic Radiosurgery device for Authorized Users in Condition 12.B.

Enclosed is a Corrected Copy of Amendment No. 71 to the license showing the correct regulatory designation, 10 CFR 35.1000, for the Perfexion Gamma Stereotactic Radiosurgery device for Authorized Users in Condition 12.B.

We apologize for the error and we regret any inconvenience it may have caused you.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system.

Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability.
