Docket No. 72-01

Mr. Bonano:

GEH Morris has provided notification of the intent to reduce the non-developed acreage of the Site. This portion has not been used for and is not impacted by licensed activities.

An evaluation of the acreage reduction on the Emergency Plan was conducted utilizing the 10CR72.48 process. The review determined that there is no decrease in the effectiveness of the Plan. Section 1 was revised to reflect the reduction in the total acreage owned by GE-Morris.

Pursuant to NRC Regulatory Issue Summary 2005-31, GEH Morris requests that Attachment 1 to this letter be withheld from public disclosure under 10 CFR 2.390 as it contains security-related sensitive information associated with our safety analyses & risk assessments.
