Mr. Michael C. Hay, Chief, Plant Support Branch 1
U.S. Nuclear Regulatory Commission
1600 East Lamar Blvd
Arlington, Texas 76011-4511

**Subject: Docket Nos. 50-361 and 50-362
Response to Inspection Report No. 05000361/2012403 and
50000362/2012403; EA-12-083 and EA-11-067
San Onofre Nuclear Generation Station, Units 2 and 3**

Reference: Letter from Mr. Thomas Blount (NRC) to Mr. Peter Dietrich (SCE) dated
June 11, 2012, NRC Inspection Report 05000361/2012403; 05000362/2012403;
Preliminary Greater Than Green Finding; and Exercise of Discretion

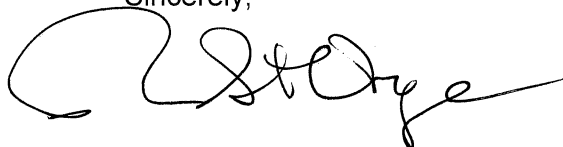

Dear Mr. Hay:

The reference letter transmitted NRC Inspection Report Nos. 05000361/2012403 and 05000362/2012403, which provided the results of a security baseline inspection completed on May 16, 2012, at San Onofre Nuclear Generating Station (SONGS), Units 2 and 3. The letter identified an apparent violation that is being considered for escalated enforcement and provided Southern California Edison (SCE) the opportunity to either: 1) request a predecisional enforcement conference; or 2) submit our position of the finding to the NRC in writing. The letter requested that SCE contact Mr. Michael C. Hay, Chief, Plant Support Branch 1, by phone and in writing within 10 days to notify the NRC of our intentions. In addition, the letter noted that if no response is received within 10 days, the NRC would continue with the significance determination and enforcement decision.

SCE has elected to accept the finding as characterized and, therefore, is not requesting a predecisional enforcement conference. Mr. D. Bauder, Site Vice President, informed Mr. Hay of this decision by phone on June 15, 2012.

This letter does not contain any commitments. If you have any questions, please feel free to contact me or Mr. R. J. St. Onge at (949) 368-6240.

Sincerely,

cc: E. E. Collins, Regional Administrator, NRC Region IV
G. G. Warnick, NRC Senior Resident Inspector, San Onofre Units 2 and 3
R. Hall, NRC Project Manager, San Onofre Units 2 and 3
