Kate,

As we discussed, the Staff's experts from Sandia and the Staff searched for but were not able to locate the requested article (Ostmeyer, R.M. and G.E. Runkle, An Assessment of Decontamination Costs and Effectiveness for Accident Radiological Releases, Sandia National Laboratories to be published) that was cited as a reference in one of the Staff's exhibits (NRC000058). If you have questions, please let me know.

Subject: NYS 12C -- request for article

Hi Brian,

In reviewing NRC Staff's expert testimony and exhibits for NYS 12C and preparing our rebuttal, our experts have requested the following document:

Ostmeyer, R.M. and G.E. Runkle, An Assessment of Decontamination Costs and Effectiveness for Accident Radiological Releases, Sandia National Laboratories to be published

The document is cited as a reference in NRC000058 (p. 8-8), but our library cannot locate the document. As it does not appear to be publicly-available, we request that NRC Staff provide us with a copy of this document. Please feel free to give me a call if you have any questions. We appreciate your prompt attention to this matter.

Best regards,
Kate
