Subject: RE: Zirc. 690 Nickel Trex Tubes

Importance: High

Dear Brian and Jane – Upon clarifying the end use with our customer the Zirc 690 Nickel Trex Tubes will only be used for development in their manufacturing tubing process with this kind of alloy. Material will not be transferred to third parties.

Based on this clarification the statement provided on the application “The end use of the material will be for heat exchanger tubing in steam generators.” is not accurate. If you could please amend the application to remove this sentence and include, Material will not be transferred to third parties, I believe we should be good to go. If you need further information please let me know. Thank you.

Sincerely,
Sheila Pershall
