WASHINGTON, D.C. 20555-0001

July 6, 2012

Mr. Kevin Walsh
Site Vice President
c/o Michael O'Keefe
Seabrook Station
NextEra Energy Seabrook, LLC
P.O. Box 300
Seabrook, NH 03874

SUBJECT: SEABROOK STATION, UNIT 1 – CORRECTION TO REQUEST FOR RELIEF
3IR-2 FOR PRESSURIZER SUPPORTS (TAC NO. ME7258)

Dear Mr. Walsh:

By letter dated September 26, 2011, (Agencywide Documents Access and Management System (ADAMS) Accession No. ML11277A269), NextEra Energy Seabrook, LLC (NextEra or licensee) submitted request for relief 3IR-2 for the third 10-year inservice inspection (ISI) interval program at the Seabrook Station, Unit 1 (Seabrook) from certain examination requirements of the American Society of Mechanical Engineers (ASME) *Boiler and Pressure Vessel Code* (Code). Specifically, the licensee requested relief from the ASME Code, Section XI requirements for the pressurizer vessel welded attachments and component supports. The request is for the remainder of the third 10-year ISI interval.

The U.S. Nuclear Regulatory Commission (NRC) staff approved the relief request by letter dated June 28, 2012 (ADAMS Accession No. ML120860397).

Subsequently, it was discovered that there were two typographical errors in the last sentence of Section 3.4 on page 3 of the safety evaluation (SE). Section 3.4 was a quote from your submittal dated September 26, 2011, and it referred to Figure 3IR-2-1. The NRC staff incorrectly typed 31R-2 instead of 3IR-2. The NRC staff tried to clarify where Figure 3IR-2-1 was located by putting the incoming submittal date in brackets. However, the NRC staff incorrectly typed the wrong year of the submittal; the NRC staff incorrectly typed September 26, 2012, instead of September 26, 2011.

If you have any questions, please contact John G. Lamb at 301-415-3100 or via e-mail at John.Lamb@nrc.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "John G. Lamb".

John G. Lamb, Senior Project Manager
