Re: Amendment to Materials License 13-09810-01

Dear Sir or Madam:

This letter is a request for an amendment to our Material License 13-09810-01 (two copies). We are requesting that Mark Davis be removed from the license as Radiation Safety Officer and John Stamm be named as the new Radiation Safety Officer.

Training and experience of John Stamm:

John Stamm completed and has a certificate of completion for a Radiation Safety Seminar, April 24-25 at Savannah, GA. It was presented by Engelhardt and Associates, Inc. A copy of his certificate is enclosed.

John Stamm (Ph.D., University of Minnesota, Twin Cities) has been certified by the University of Minnesota, Twin Cities to use radioactive material. The training was primarily for safe handling of the isotopes P-32 and S-35 used in his prior research, but included more safe practices due to the large lab setup of the Division of Structural Biology at the University of Minnesota. He also received annual refresher training during his time there.

Sincerely,

Mark S. Davis, R.S.O.
