**Subject: OPPD 120-Day Response to NRC Request for Information Pursuant to 10 CFR 50.54(f) Regarding Recommendation 2.3: Seismic of the Near-Term Task Force Review of Insights from the Fukushima Dai-ichi Accident**

On March 12, 2012, the NRC issued Reference 2 to all power reactor licensees and holders of construction permits in active or deferred status. Reference 2, Enclosure 3, Recommendation 2.3: Seismic requires that within 120 days, addressees must confirm that they intend to use the NRC-endorsed seismic walkdown procedure or provide the NRC with a description of the process that will be used to conduct the walkdowns and develop the necessary information.

Therefore, the Omaha Public Power District (OPPD) hereby confirms that EPRI Report 1025286, *Seismic Walkdown Guidance For Resolution of Fukushima Near-Term Task Force Recommendation 2.3: Seismic*, as endorsed by the NRC in Reference 3 will be used to conduct the seismic walkdowns and develop the necessary information for Fort Calhoun Station.
