**To:** Olivier, Julie A (GE Power & Water)  
**Subject:** CAMA Consistency Determination

Julie,

Thank you for keeping us informed with the status of the CAMA review. We need to know as soon as possible when you receive the CAMA consistency determination from the State. The consistency determination required by the Coastal Zone Management Act and the Coastal Area Management Act must be conducted prior to obtaining a Federal permit or license. Thus this determination must be obtained prior to issuance of an NRC license.

Jennifer
