**Date:** Friday, June 22, 2012 10:16:00 AM

---

Joel and Skip,

My apologies for not noticing this problem when you sent the electronic copy of the STA, but the STA refers to the -01 license for the radiopharmacy, not to the -02 license for the cyclotron. I left messages for both of you on your voice mail.

We need a replacement or amended STA that refers to the correct license number. The CFA is correct for the -02 cyclotron license.

Betsy

Hi Betsy –

The signed STA for the LMI Radiopharmacy license in Puerto Rico is on its way to Region I.

This afternoon I sent a package to both you and Raymond Lorson consisting of a cover letter, a signed and notarized original plus one copy of the STA.

You and Mr. Lorson should receive them tomorrow morning.

Once you and Mr. Lorson review the package let Joel know if there is any additional information needed.

Thank you.

- Skip
