

July 27, 2012

Mr. Pedro Salas, Manager  
Site Operations and Regulatory Affairs  
AREVA NP Inc.  
3315 Old Forest Road  
Lynchburg, VA 24501

SUBJECT: ACCEPTANCE FOR REVIEW OF AREVA NP, INC (AREVA) TOPICAL REPORT (TR) ANP-10249PA REVISION 1, SUPPLEMENT 1P, REVISION 0, "IMPROVED K-FACTOR MODEL FOR ACE/ATRIUM 10 CRITICAL POWER CORRELATION" (TAC NO. ME7964)

Dear Mr. Salas:

By letter dated December 21, 2011, AREVA NP, Inc. (AREVA) submitted for U.S. Nuclear Regulatory Commission (NRC) staff review Topical Report (TR) ANP-10249PA Revision 1, Supplement 1P, Revision 0, "Improved K-factor Model for ACE/ATRIUM 10 Critical Power Correlation." NRC staff has performed an acceptance review of this TR. We have found that the material presented is sufficient to begin our comprehensive review. The NRC staff expects to issue its request for additional information by January 1, 2013, and issue its draft safety evaluation (SE) by August 30, 2013. The NRC staff estimates that the review will require approximately 280 staff hours including project management time. The review schedule milestones and estimated review hours were discussed and agreed upon in a telephone conference between Gayle Elliott, AREVA Product Licensing Manager and the NRC staff on May 18, 2012.

Section 170.21 of Title 10 of the *Code of Federal Regulations* requires that TRs are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, NRC staff hours will be billed accordingly.

As with all TRs, the SE will be reviewed by the NRC's Office of the General Counsel (OGC) to determine whether it falls within the scope of the Congressional Review Act (CRA). During the course of this review, OGC considers whether any endorsement or acceptance of a TR by the NRC amounts to a rule as defined in the CRA. If this initial review concludes that the SE, with its accompanying TR, may be a rule, the NRC will forward the package to the Office of Management and Budget (OMB) for further review and consideration. Any review by OMB would impact the schedule for the final issuance of the SE.

P. Salas
