1.0 BACKGROUND

License Renewal Application

On November 27, 2007, Crow Butte Resources, Inc. (CBR) submitted an application to the U.S. Nuclear Regulatory Commission (NRC) for the renewal of NRC materials license SUA-1534 for CBR to continue operation of an *in-situ* uranium recovery (ISR) facility for an additional 10 years. NRC staff accepted CBR's license renewal application for detailed technical review on March 28, 2008.

North Trend Expansion

On May 30, 2007, the NRC received an application from CBR to amend materials license SUA-1534 to construct and operate an ISR facility at the North Trend Expansion Area. The NRC staff accepted CBR's North Trend Expansion Area license amendment application for detailed technical review on August 28, 2007. The proposed North Trend Expansion project area consists of approximately 2,110 acres located approximately 4.5 miles northwest of the current CBR ISR facility, which is located approximately four miles southeast of the City of Crawford.

Section 106 process

As established in Title 10 Code of Federal Regulations Part 51 (10 CFR 51), the NRC regulation that implements the National Environmental Policy Act of 1969, as amended, the NRC is conducting an Environmental Review (ER) of the Crow Butte License renewal and Crow But North Trend Expansion proposed actions it received from CBR. The ER will address the impacts associated with the construction, operation, and decommissioning of the proposed facility. As outlined in 36 CFR 800, to comply with Section 106 of the National Historic Preservation Act of 1966 through the requirements of the National Environmental Policy Act of 1969, the ER will also include analyses of potential impacts to historic and cultural resources.

To enhance the scope and quality of our review and facilitate the identification of Tribal historic properties and/or cultural resources, specifically, sites that may have traditional religious or cultural significance to Native American Tribes that may be interested in and/or affected by the proposed actions, the NRC staff is actively engaged in consultation with various Tribes. As part of the consultation effort, the NRC staff holds face to face meetings with various Tribes to gather and disseminate information related to identification of historic properties. The NRC staff anticipates increased number of face to face meeting for these two projects in order to complete the Section 106 process effectively and comply with all the Section 106 requirements.
