KING OF PRUSSIA, PENNSYLVANIA 19406-2713

July 12, 2012

Docket Nos. 03030661
03014038
Control Nos. 577545
577546

License Nos. 12-28232-01
24-18683-01

John K. Cook
Vice President for Human Resources
H. W. Lochner, Incorporated
20 North Wacker Drive, Suite 1200
Chicago, IL 60606

SUBJECT: H. W. LOCHNER, INCORPORATED, LICENSE AMENDMENT, CONTROL NOS.
577545 AND 577546

Dear Mr. Cook:

This refers to your application dated May 11, 2012, for license amendment. Enclosed with this letter is the amended license. The amended license adds as an authorized location of storage and use, your facility located in Kansas City, MO. This facility was previously listed as such on NRC License No. 24-18683-01, which is terminated concurrent with issuance of this Amendment.

The amended license is written in accordance with current NRC policy and includes significant changes in the conditions of the license. Specifically, Condition 11 is revised and Condition 18 that appears in Amendment 09 of the license is removed from the license because it is not applicable to the type of gauges that are authorized on the license.

Please be reminded that you must conduct all licensed activities at all of your locations in accordance with the commitments described in the documents listed in Condition 19 of this license, along with all applicable NRC regulations/requirements. As I explained to you during our telephone conversation of July 9, 2012, NRC regulations do not have provision for an Alternate or Assistant RSO; therefore we cannot list more than one individual as RSO on the license. A licensee may designate any individual(s) to assist the named RSO in his tasks. However, the named RSO remains ultimately responsible for the implementation of the licensee's radiation safety program.

As I explained to you during our July 9, 2012, telephone conversation, your license is administered from NRC Region I office. Therefore, you should address all future correspondence related to your license to the Region I office at the following address:

U.S. Nuclear Regulatory Commission, Region I
ATTN: DNMS
2100 Renaissance Boulevard, Suite 100
King of Prussia, PA 19406-2713

J. Cook

2

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

Thank you for your cooperation.

Sincerely,

Original signed by Sattar Lodhi, Ph.D.

Sattar Lodhi, Ph.D.
