I note from your voice-mail that you will not be in the office until July 18th. I am sorry to hear about all the turmoil that you and your staff are experiencing. Financial assurance actions have a longer timeline than normal amendments so you will note that the last paragraph does not mention that the action will be voided after thirty days if there is no response. If you can get a response to me prior to August 1st, that is fine. That date is close enough to September 1st that I will keep the action open for the Standby Trust Agreement should that prove difficult for you to complete by August 1st. Please let me know if you will be combining the licenses, which will require a separate amendment request, or maintaining all three licenses.

Subject: Response Delayed - Extension Requested

Dear Steven,

I write to let you to know that although we have been working on your request for additional information related to financial assurance documents, I have not yet completed this task. Unexpected staff absences, a recent recreational accident that resulted in the death of one our valued and long term EHS staff members (and the emotional trauma caused by this to many in our office), and planned staff vacations have all contributed to this matter not yet being complete. This items remains at the top of my priority list to complete for you, however I will not likely have a formal response to your letter dated June 12, 2012 prior to August 1, 2012. I will be on vacation starting August 16th and thus plan to have this item completed prior to the start of my vacation. I respectfully request an extension on this matter until that time. Thank you for your consideration and understanding. Tammy
