SUBJECT: BORSCHOW HOSPITAL & MEDICAL SUPPLIES, INC., A CARDINAL HEALTH
COMPANY, VOIDANCE OF APPLICATION FOR NEW LICENSE, CONTROL
NO. 577398

Dear Dr. Regits:

This concerns the subject application for an NRC license and our letter in which we notified you that the application was deficient and that certain additional information was required. In your reply letter dated June 26, 2012, you stated that you are currently recruiting to fill the positions in the pharmacy and that information will be provided to the NRC when the positions are filled. In addition, you stated that the application for a pharmacy license from the Commonwealth of Puerto Rico has been filed but the license has not been received.

On July 13, 2012, we contacted you and determined that you still did not have the necessary information described above for the NRC to issue a license. Based on the above determination, you submitted a written request to void the license by facsimile dated July 13, 2012, to the NRC. The NRC is voiding your application without prejudice to the resubmission of your request. NRC may consider your application for a license when you provide all necessary required information. If you reapply for an NRC license please refer to the mail control number and the materials already submitted, rather than submitting a duplicate application.

Please note that the office of the Region I USNRC Division of Nuclear Materials Safety has moved effective May 9, 2012. Our new address is:
