U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

Duane Arnold Energy Center  
Docket No. 50-331  
Renewed Op. License No. DPR-49

Subject: License Amendment Request to Adopt National Fire Protection Association Standard 805, Performance-Based Standard For Fire Protection For Light Water Reactor Generating Plants - Transmittal of CFAST files

During the NRC NFPA 805 Fire Modeling audit conducted at NextEra Energy Duane Arnold on May 30th and May 31st, the NRC staff requested that Consolidated Model of Fire And Smoke Transport (CFAST) files be provided for BIN 15 of each ignition source and each ventilation condition, including the sensitivity cases for wall/corner fires.

Enclosed is a compact disc containing the requested information. NextEra Energy Duane Arnold requests that these files, which contain sensitive information, be withheld from public disclosure in accordance with 10 CFR 2.390.

The attached CD contains sensitive information, withhold from public disclosure under 10 CFR 2.390. Upon removal of CD, this letter is decontrolled.
