I called Mr. Kirby about the CFA dated June 27, 2012 and left a message. He called me back and we discussed the changes need on the CFA to make it acceptable. It did not state the certification was in accordance with 10 CFR 70 as well as 10 CFR 30. The Part 40 byproduct material was listed under Part 30 materials. We also discussed getting an official reply to my April 25, 2012 email. This included a discussion on general licensed materials, specific licensed materials and the need for manufacturing a model numbers for the Ni-63 and Co-60 isotopes.

Action Required: Mr. Kirby to review these items and submit the reply.
