Is there anything that needs to be done with this? I touched base with Elba Sanchez in R3 and they had not received it so I forwarded it to her (hope that was alright). Before she forwards it around in the region, I wanted to double check that it was something that could be forwarded. Or do I need to ask her to disregard it for now?

Also, I just ran into Sean in the hall and he asked for an updated POP for Davis Besse for Michelle, so I'm working on that now. He was on his way to your office to request it, but your door was closed and he saw me so I said I'd pass it along.

Pete
