**RE: Contractor Change for the Mallinckrodt C-T Phase II D&D Project,
License Number STB-401**

Dear Mr. Buckley:

This purpose of this letter is to notify the NRC of a contractor change for the Mallinckrodt C-T Phase II D&D Project. Mallinckrodt has released AECOM from the C-T decommissioning project at the St. Louis Plant and as of July 10, 2012 contracted Energy Solutions to take over the remediation work.

Please find attached a Transition Plan prepared by Energy Solutions for the project. I understand that the NRC will want to conduct an inspection as a result of contractor change. I will coordinate directly with NRC inspectors to schedule an inspection.

If you have any further questions, please contact me at 314-654-5838.

Sincerely,

Karen M. Burke
