CONTROL NO. 577670

Dear Dr. Wiske:

This refers to your license amendment request. Enclosed with this letter is the amended license adding the new facility in North Haven, Connecticut. Prior to release of your current facility in New Haven, Connecticut for unrestricted use, you must receive an amendment removing it from your license. Please ensure that the amendment request includes the results of surveys demonstrating that the levels of residual activity in the New Haven facility are acceptable. When you submit the amendment request, please refer to the Control Number at the top of this letter.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).
