RE: NRC Temporary Job Site Notification - US NRC RML 06-20775-01; Docket 03022060

Dear Ms / Sir:

EnergySolutions is submitting this formalized advance notification following our phone and email communications with Eugenio Bonano and Kathy Modes on July 11th and July 16th, respectively, for work at a temporary job site at the Mallinckrodt facility located at 3600 N Second Street in St. Louis, MO. EnergySolutions will be completing the C-T Plant Phase II decommissioning in accordance with the approved Decommissioning Plan for Mallinckrodt, LLC NRC License STB-401, Docket 40-06563. In support of the project, EnergySolutions will receive and possess a mixed gamma standard for calibrating the on-site gamma spectroscopy system which contains radionuclides currently not listed under the Mallinckrodt RML. As both the EnergySolutions and Mallinckrodt RMLs will be implemented at the same facility, a division of responsibilities agreement will be established between the two licensees in accordance with condition 13 of the EnergySolutions RML. A copy of the agreement will be forwarded once signed by both RSOs.

EnergySolutions will be mobilizing to the project site on Monday, July 23rd to perform on-site training and project set-up and estimate that ground will be broken the following Monday, July 30th. We plan on receiving the mixed gamma standard on July 30th. The EnergySolutions Project Manager will be Mark Cambra and he may be reached at 203-482-7466. The Authorized Users of the EnergySolutions RML will be Charles Irion, Everett Chretien and Michael A. Carr. The on-site RSO for the EnergySolutions RML will be Michael A. Carr.

If you have any questions, you may contact me at 865-425-4587 (office), 865-250-2149 (cell) or via email at mcarr@energysolutions.com.

Subject: Division of Responsibilities – C-T Plant Phase II Decommissioning

Dear Ms. Burke,

Attached you will find a division of responsibilities between *EnergySolutions*, and Mallinckrodt, LLC. This agreement has been prepared for the C-T Plant Phase II decommissioning activities to be performed at 3600 N Second Street facility in St. Louis, MO. Because both the *EnergySolutions* and Mallinckrodt, LLC Radioactive Materials Licenses will be implemented in support of this work, this division of responsibilities outlines those Radioactive Materials Program requirements that will be the responsibility of the respective licensee. If agreeable, please sign the attached agreement and return for maintenance with the project files.

If you have any questions or require additional information please contact me at (865) 425-4587 or email me at mcarr@energysolutions.com.

Regards,

Michael A. Carr, CHP

US NRC Region III, Eugenio Bonano

Division of Responsibilities

The following is a summary of the licensed activities that *EnergySolutions* and *Mallinckrodt, LLC* will be responsible under their respective Radioactive Materials licenses during the remaining C-T Plant Phase II decommissioning.

EnergySolutions

EnergySolutions shall be responsible for the following activities under the *EnergySolutions* mobile NRC Radioactive Materials D&D license, 06-20775-01:

- Receipt and control of the on-site laboratories mixed gamma standard(s) and check sources.
- Operations of the on-site analytical lab.
- Use of our RPP procedures to cover operations of the Phase II decommissioning following equivalency review against existing *Mallinckrodt* C-T procedures.
- Personnel monitoring for *EnergySolutions* and our subcontract personnel.
- Public monitoring for C-T plant phase II decommissioning activities.
- Waste management of C-T plant radiological waste only.

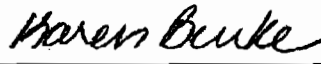

Mallinckrodt, LLC

Mallinckrodt, LLC shall be responsible for the following activities under the *Mallinckrodt, LLC* Radioactive Materials license, STB-401.

- Active C-T plant phase II decommissioning (i.e., excavation) in accordance with the Decommissioning Plan.
- Ensure *EnergySolutions*' RPP procedures are compliant with the requirements of the C-T plant phase II Decommissioning Plan.
- All other on-site license activities.
