Subject: Disposition of Licensed Material

CMT, Inc. filed for Bankruptcy under Chapter 7 of US Bankruptcy Code. This afternoon, the court appointed trustee responded to the July 3rd letter that RI sent to the licensee and the copies to trustee and others. She stated that there is a perspective buyer of assets of the licensee, and she wanted to know what qualifications the buyer should have to acquire the assets.

I informed her that NRC's interest in this case is limited to the material that the licensee had acquired under its NRC license, and any fees that the licensee may owe the NRC. I explained to her what the material is (between 4 and 6 portable gauges), and that any perspective buyer must have an active license from the NRC or an Agreement State. I informed her that if we know the name of the buyer, we can look into our records to verify if they have NRC license or not. I cautioned her to ensure that she reviews the needed license prior to transfer of licensed material. I also reminded her of the regulations in 10 CFR30.34(b), that require the licensee to obtain written consent of the NRC prior to transfer of control of license to another entity.

She will call me when she has that information.
