Jacqueline D. Cook
Senior Health Physicist

1. In Items #6 & #9 of your response you state that you have 3 nuclear gauges. Please specify the model number of these nuclear gauges and/or please submit an inventory and/or specify a possession limit for each type of gauge you may have authorized on your license (License No. 49-27418-01).

Please note that we are requesting this inventory so that we may specify/limit the possession limits on your license as necessary.

2. Please provide either of the following:

- The statement: "Before using licensed materials, authorized users will have successfully completed one of the training courses described in Criteria in the section entitled 'Training for Individuals Working In or Frequenting Restricted Areas' in NUREG-1556, Vol. 1, Rev. 1, 'Consolidated Guidance about Materials Licenses: Program-Specific Guidance about Portable Gauge Licenses,' dated September 2001";

OR

- A description of the training and experience for proposed gauge users.

3. Please provide either of the following:

- A statement that: "We will possess and use, or have access to and use, a radiation survey meter that meets the criteria in the section entitled 'Radiation Safety Program – Instruments' in NUREG-1556, Vol. 1, Rev. 1, 'Consolidated Guidance about Materials Licenses: Program-Specific Guidance about Portable Gauge Licenses,' dated November 2001, in the event of an incident";

OR

- A description of an alternative procedure for determining source integrity after an incident involving the gauge.

4. For routine cleaning and lubrication: Please submit either of the following:

- A statement that: "We will implement and maintain procedures for routine maintenance of our gauges according to each manufacturer's recommendations and instructions."

OR

- Alternative procedures for NRC review.
-

5. For non-routine maintenance or repair operations that require detaching the source or source rod from the gauge: Please submit either of the following:
- A statement that: "We will send the gauge to the manufacturer or other person authorized by NRC or an Agreement State to perform non-routine maintenance or repair operations that require detaching the source or source rod from the gauge."

OR

- The information listed in Appendix G supporting a request to perform this work in-house.
-
