The Honorable Allison M. Macfarlane, Chairman
U. S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Chairman Macfarlane:

On behalf of the Conference of Radiation Control Program Directors (CRCPD), I extend our congratulations to you on your appointment as Chairman of the Nuclear Regulatory Commission. We would also like to assure you and NRC of our continued assistance from a state regulatory perspective as radioactive material, emergency planning, and radioactive waste issues arise.

The CRCPD is a non-governmental professional organization that represents the state and local radiation control programs in the United States. CRCPD's mission is "to promote consistency in addressing and resolving radiation protection issues, to encourage high standards of quality in radiation protection programs, and to provide leadership in radiation safety and education." We do this by partnering with the federal agencies involved in radiation protection, encouraging information exchange among the state and local programs, and providing consensus model standards and guidance, with input from state and federal agencies and other radiation experts.

Your interest in maintaining a dialogue and collaboration with CRCPD is very important to us and is greatly appreciated. We look forward to working with you during your term as Chairman.

Sincerely,

Earl Fordham, CHP
Chairperson
