Dear Major Walker,

The U.S. Nuclear Regulatory Commission (NRC) is updating information for designated State contacts that receive advance notification of certain shipments of nuclear waste and

spent fuel.

On May 9, 2012, Linda Burris of your staff indicated that you are still the Indiana contact for such notification. That afternoon you should have received an email asking for confirmation that you are still the Indiana official to receive advance notification, and that the contact information below is still correct.

Please send response via return email.
