Dear Mr. Vinson:

The Office of Federal and State Materials and Environmental Management Programs has received your July 20, 2012 email requesting withdraw of the Illinois proposed revision, 335.1070, *Authorities and Responsibilities for the Authorized Medical Physicist*. We have terminated our review of this draft provision. We are continuing the review of the remaining provisions of the Illinois regulations package received on June 21, 2012.

Please note, changes to *Authorities and Responsibilities for the Authorized Medical Physicist* are not considered unique to the State of Illinois. Any future changes will need to be reviewed for compatibility determinations per FSME Procedure SA-201, *Review of State Regulatory Requirements*.

If you have any further comments or questions, please contact me. Thank you for your attention.
