Description of project activities:

Radiological surveys and decontamination of items and equipment in Buildings 716 and 806. Items not decontaminated will be downsized and packaged for disposal.

Final status surveys and sampling of Buildings 716 and 806 will be performed following contaminated items/material packaging and removal.

Waste Management and disposition:

Waste materials will be packaged into DOT approved B-25 boxes and transported to the Toxco Material Management Center processing facility located in Oak Ridge, Tennessee for processing and disposal. It is anticipated that a maximum of approximately 450 cubic feet of waste materials will be generated.

Final Survey Results Summary:

N/A

Complications/Unexpected encounters with radioactive materials:
