Mike,

Sorry I missed your call. I did receive your voicemail containing the Chapter 14 SER password - thanks.

(See attached file: ML12151A291(Fermi Chp 14 AFSE non-public).pdf)
(See attached file: ML12185A141(Fermi Chp 14 letter).pdf)

Mr. Latzy,

In preparation for the upcoming 2012 ACRS subcommittee meetings in support of the FERMI 3 COLA, I have attached the Advanced Final Safety Evaluation (AFSE) for Chapter 10 along with the July 5, 2012 transmittal letter. Please note that the enclosed SER and letter are electronic courtesy copies provided in order for DTE to begin a proprietary review. Hard copies are also being mailed to Mr. Jack Davis. We are requesting for DTE to perform their proprietary review within 10 days from the date of the above letter. Until a determination that the enclosures do not contain proprietary information, these documents should not be released to the public and the attached AFSE is password protected at this time.

In addition to Chapter 14, NRC staff plans to present Chapters 2, 3 and 10 at the upcoming August 16, 2012 ACRS subcommittee meeting. Draft meeting agendas and other details will follow. Please let me know if you have any questions.

Michael A. Eudy - Project Manager

U.S. Nuclear Regulatory Commission
